CLASS	SYMBOL	CUSIP	FUND INCEPTION	EXPENSE RATIO	
Retail	FLDGX	58510R879	02/29/2000	Net: 1.34%	Gross: 1.47%
Adviser	DYGAX	58510R770	10/31/2016	Net: 0.98%	Gross: 1.11%
Institutional	DYGIX	58510R762	10/31/2016	Net: 1.00%	Gross: 1.13%

Objective

The Fund seeks to provide long-term capital appreciation.

Investment Strategy

The Dynamic Allocation Fund pursues its objective by investing in areas of the stock market believed to be demonstrating relative strength and relative value. The Fund will normally invest in large capitalization securities, but may invest in smaller market capitalizations when they are believed to demonstrate relative value. Additionally, the Fund can invest in specific industry sectors as well as international equities in order to pursue its objective.

85%+ Equity

Morningstar Ratings

As of 12/31/2022

Overall	3 Years	5 Years	10 Years
★★★★	★★★★★	★★★★	★★★★
out of 188 funds	out of 188 funds	out of 181 funds	out of 123 funds

The Morningstar proprietary rating reflects historical risk adjusted performance for the period stated. For each fund with at least a three-year history, Morningstar calculates a Morningstar Rating based on a Morningstar Risk-Adjusted Return measure that accounts for variation in a fund's monthly performance (including the effects of sales charges, loads and redemption fees), placing more emphasis on downward variations and rewarding consistent performance. Each share class is counted as a fraction of one fund within this scale and rated separately, which may cause slight variations in the distribution percentages. The top 10% of funds in each category receive 5 stars, 22.5% receive 4 stars, 35% receive 3 stars, the next 22.5% receive 2 stars, and the bottom 10% receive 1 star.

DISCLOSURE

The performance data shown represents past performance, which does not guarantee future results. The investment return and principal value of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. Current performance may be lower or higher than the performance data quoted.

Investors are advised to consider carefully the investment objectives, risks, charges and expenses of the fund before investing. The prospectus contains this and other information about the funds. Contact us at the address below to request a free copy of the prospectus. Please read the prospectus carefully before investing.

Investment performance assumes reinvestment of all dividend and capital gain distributions. Returns for less than one year are not annualized. Performance data may reflect the effect of voluntary fee waivers or expense reimbursements that may change or end at any time. Institutional and Adviser Class share performance reflects Retail Class performance prior to the creation of those share classes.

The gross expense ratio reflects the total fund operating expense ratio gross of any fee waivers or expense reimbursements as set forth in the current prospectus. The net expense ratio is the audited ratio of net expenses to average net assets as set forth in the fund's most recent annual report, which may include the effect of voluntary fee waivers or expense reimbursements.

The Morningstar Aggressive Target Risk Index tracks a diversified portfolio of global equities, bonds and inflation-hedged instruments with a 95% allocation to equities. Indexes do not take into account management fees or expenses associated with a mutual fund. The 85%+ Equity Category represents the Morningstar Category average return for the group shown.

Key Definitions: Alpha measures the fund's performance on a risk adjusted basis against the stated benchmark. A positive alpha indicates that the fund has outperformed its index. Beta measures the fund's volatility relative to the stated benchmark. A Beta greater than 1.00 indicates that a fund's historical returns have fluctuated more than the stated benchmark. Standard Deviation measures the annualized variation of the fund's performance against its mean over time. A higher standard deviation is an indication of greater volatility. R² measures the relationship between the fund's performance and the benchmark. A fund that perfectly matches its benchmark has an R² of 100. Sharpe Ratio is a risk adjusted measure of excess return that compares a fund's performance with a risk free return. A higher Sharpe ratio indicates better risk-adjusted performance.

Meeder Funds are distributed by Meeder Distribution Services, Inc., Member FINRA. An affiliated registered investment adviser, Meeder Asset Management, Inc. serves as the investment adviser to the Meeder Funds and is paid a fee for its services.
